My God Is Real-Oak Ridge Boys
Auth Kenneth Morris

```
C                        C7      F
There are some things I may not know
               C      G7      C
There are some places I can't go
                 C7       F
But I am sure of this one thing
               C              G7             C
That my God is real for I can feel Him in my soul

              C7         F
I cannot tell just how I felt
          C           G7   C
When Jesus took all my sins away
                     C7      F
But on that day yes on that hour
          C              G7            C
My God was real for I can feel His holy power

         F                    C
My God is real He's real in my soul
                                                G7
My God is real for He has washed and made me whole
C                  C7        F
His love for me is like pure gold
         C              G7             C
My God is real for I can feel Him in my soul
```
