Tell Me What I Want To Hear-Jean Shepard
Author:Jack Rhodes and Gertrude Cox

```
C                     F       C
Darling please don't make me wonder
        G7                C
Give my heart no cause to fear
                  F      C
Say you know our love's eternal
        G7             C
Tell me what I want to hear

        F                 C
Say you feel the same old magic
       D7                G7
That I feel when you are near
C                      F       C
Whisper love words and sing me love songs
        G7             C
Tell me what I want to hear

                F        C
Others lips and arms may hold me
       G7                  C
But no other could make me care
              F         C
Let me always feel your love dear
        G7             C
Tell me what I want to hear
```

Repeat #2
