That Song Is Driving Me Crazy-Tom T. Hall

```
C
That song is driving me crazy I gotta hear it again
                                     C7
First time I heard it I was with some friends
       F                           Fm                 C            A7
It's a simple little song you can sing along with an old time melody
            D7                     G7             C
So would you play that crazy little song again for me

  F                    Fm                 C                A7
I love that part about break my heart and baby please come home
      D7        C          Fm         D7          G7
And I love that line about hurting my mind and my beer ain't got no foam
     F                     Fm                     C         A7
Well you'll sing high and I'll sing low and everybody sing along
    D7        C            Fm     D7            G7
But everybody quit while I get my kicks singing bring that boogie home

That song is driving me crazy I gotta hear it again
                                     C7
First time I heard it I was with some friends
       F                           Fm                 C            A7
It's a simple little song you can sing along with an old time melody
            D7                     G7             C
So would you play that crazy little song again for me
