PURPLE ROBE

```
Verse 1:                        G                       C             G
                        It's  a story  so unkind in the Holy Book we find,
                                                                       D
                                And it tells how Jesus stood alone one day.
                              G
                        False accused and there condemned,
                                          C                   G
                                Yet they found no fault with Him.
                                              D               G
                        The man who wore the Scarlet Purple  Robe.
Chorus:
                        G
C               G
                        Purple Robe my Savior wore,oh the shame for me He bore,
                                                                   D
                                as He stood alone forsaken, on that day.
                                 G                              C
                        And they placed upon His head, piercing thorns
                                                   G
                                of blood stained red.
                                             D              G
                        His raiment's was a Scarlet Purple Robe.
Verse 2:
                               G                            C
                        In the common judgement hall, He was mocked
                                                  G
                                and scorned by all.
                                                          D
                        And the tears of sorrow fell upon His cheek,
                                          G
C               G
                                Soldiers of the wicked man, smote Him with
their evil hand
                                              D              G
                        The man who wore the scarlet purple robe.
Verse 3:
                                 G                                  C              G
                        Words of truth,that day was plain,from the lips of
Pilate came.
                                                                        D
                                In this man, I find no reason He should die.
                                G                              C           G
                        But the multitude then cried,"Let Him now be crucified,"
                                                        D              G
                                The Man who wore the Scarlet Purple Robe.
