Sweetheart-Englebert Humperdinck lyrics & chords

Sweetheart-Englebert Humperdinck

```
        G                                   D
If your heart tells you so, that you should leave me
      A                      G       D
Don't try to forget, you and I never met
      G                            D
And before you fly, why can't you tell me why
          E7                                 A7          Em7 A7
You've forgotten all the words that you once said, when you said

Chorus
G
Long as I've got you there beside me, long as you're there to stand a guide me
Bm                    D            A7
The love we share, no one can ever tear apart
D
Long as I've got this life I'm living, long as it's you, the love I'm with then
G            A           D          D7
I'll keep on callin' you sweetheart

Verse 2
If my love for you can't make you happy
Just open the door and you won't see me anymore
And before you fly, why can't you tell me why
You've forgotten all the words that you once said

Chorus
Long as I've got you there beside me, long as you're there to stand a guide me
The love we share, no one can ever tear apart
Long as I've got this life I'm living, long as it's you, the love I'm with then
And I'll keep on callin' you sweetheart
Am7 D7 G            A           D           G          D        A7 D
  And  I'll keep on callin' you sweetheart
