I Came So Close To Living Alone
recorded by Merle Haggard                          [3/4 time]
written by Jimmie Davis and Ken Hunt

C                 G7       C
I came close  so close to failure
                 G7      C
I came close to living alone
            F                                C
I know the kids still love me and their mommy
                         G7        C
But I came so close to losing my home

  F                                     C
I felt small enough to drown in each teardrop
    D7                         G7
But big enough to admit I was wrong
     F                         C
When I think of what I done a chill goes through me
                         G7        C
But I came so close to losing my home

  F                                     C
I felt small enough to drown in each teardrop
    D7                         G7
But big enough to admit I was wrong
     F                         C
When I think of what I done a chill goes through me
                         G7        C
But I came so close to losing my home

                     G7        C
I came so close to losing my home
```
