 D                       G                  D
There's no magic way---For me to get over you

 D                        A                              D
There's not much left to say---and not a thing left to do

 D                 G                  D
Seldom I laugh---and seldom I ever cry

  E                                    A
But there's times I drink too much--and theres times when I lie

 D                         G                  D
Sometimes I hate myself--and wish I could scream

  A                              D
Sometimes I give up on love --But sometimes I dream

Chorus

 D                   G                     D
Sometimes I dream--looking out thru my window

  A                         D
Speeding thru the night---in a long limosine

 D                              G                    D
There's a curse on my heart---and I'll never love again

 A                         D
I'm forever a lonely man--but sometimes I dream
