Thats The Way Love Goes
by Lefty Frizzell
Merle Haggard arrangement

charted by Bo Frazer: bfrazer@datamanagement.com

Verse (the only one; chorus chords are the same):

```
G                  Dm   G
I've been trowing horseshoes
C            D
Over my left shoulder
C                G
I've spent most all my life
A                 D
Looking for that four-leafed clover
G            Dm   G
When you run with me,
C          D
Chasing my rainbows
C       G
Honey I love you, too
D                        G
And that's the way love goes.
```

Chorus:
That's the way love goes, babe
That's the music God made
For all the world to sing
It never gets old; it grows
Losing makes me sorry
You say, "Honey, don't worry."
Honey, I love you, too
And that's the way love goes.
