Think Ill Drink

```
A                        D
Could be holding you tonight
D                          A
Could be doing wrong or doing right
A                                E
You don't care about what I think
E                                  A
I think I'll just stay here and drink

A                                          D
Hey, putting you down won't square the deal
D                            A
A least you'll know what I feel
A                                E
Hey, take all the money in the bank
E                                  A
I think I'll just stay here and drink

A                               D
Hey, listen close and you can hear
D                            A
That loud jukebox playing in my ear
A                                  E
Ain't no woman gonna change the way I think
E                                  A
I think I'll just stay here and drink

[INSTRUMENTAL: SAME PROGRESSION ONCE AROUND]

A                                    D
Hey, hurtin' me know don't mean a thing
D                                        A
Since love ain't here I don't feel a thing
A                                    E
My mind ain't nothing but a total blank
E                                  A
I think I'll just stay here and drink

[INSTRUMENTAL: SAME PROGRESSION SEVERAL TIMES AROUND]
