```
 D                                A                              D
  I found him by the railroad track this morning
 D                        A                      D
  I could see that he was nearly dead
   G                                                  D
 I knelt down beside him and I listened
   A
 Just to hear the words the dying fellow said
  D                                        A                      D
  He said they let me out of prison down in Frisco
    D                                A                        D
 For ten long years I've paid for what I've done
  G                                        D
 I was trying to get back to Louisana
A                                                          D
 To see my Rose and get to know my son
           G
D
CH.    Give my love to Rose please won't you mister
A                                                     D
 Take her all my money,tell her to buy some pretty clothes
    G                                                    D
 Tell my boy his daddy's so proud of him
  A                                                    D
 And don't forget to give my love to Rose

         Tell them I said thanks for waiting for me
