            Em7-5    A7
It's just impossible.
A7     Dm               Cm7         F7

Can I hold you closer to   me,
        F               D7b9
And not feel you going through me,
          Gm7           G7
split the second that I never think of you?

C7      F     F6        FM7            F6
Can the ocean keep from rushing to the shore?
            Em7-5    A7
It's just impossible.
A7   Dm               Cm7          F7
If I had you could I ever ask for more?
            Am7-5    D9
It's just impossible.
      Gm7                Bbm7           Eb9
And tomorrow, should you ask me for the world,
            F                D7b9
Somehow I'd get it, I would sell my very soul,
          Gm7                             C7b9
And not regret it for to live without your love
          F6      F
Is just impossible.
