DREAMS OF YOU
Ralph McTell

How I can bear it knowing you're there whilst I'm here
And I'm there and I'm nowhere and everywhere?
Dream of you, baby.

I dream of you, baby,
It's driving me crazy
These dreams of you.

And how can I hope to
Do what I'm supposed to?
When all that I want, when all that I need
Is just to be close to you?

Chorus

And if love is good
Then how come it hurts so much?
I long for your smile
Your body, your sweet touch.

Chorus

Oh, the dreams I've had, baby,
Are driving me crazy
How much can I stand?
Like an old tune that haunts me
It's driving me crazy.

Chorus

But morning must come soon
Dreams, like an old tune
That's been round my brain
Will finally leave me
When you're in my arms again.

Chorus
