Joshua

**D**

Well a good ways down the railroad track

**G**

There was this little old rundown shack

**A**

And in it lived a man I'd never seen

**D**

Folks said he was a mean and a vicious man

**G**

And you better not set foot on his land

**A**

**D**

I didn't think nobody could be that mean

**D**

So I took me out walking down the railroad track

**G**

I was a-gonna go down to that little old shack

**A**

**D**

And just find out if all them things I'd heard was true

There was a big black dog laying out in the yard

**G**

And it growled at me and I swallowed hard

**A**

**D**

And I heard somebody say well who are you

Oh and there he stood in the door of that shack

**G**

His beard and his hair was long and black

**A**

**D**

And he was the biggest man I'd ever seen

When he spoke his voice was low and deep

**G**

But he just didn't frighten me

**A**

**D**

'Cause somehow I just knew he wasn't mean

He said what you doing snooping 'round my place

**G**

And I saw a smile come across his face

**A**

So I smiled back and I told him who I was

**D**

He said come on in and pull you up a chair

**G**

You might as well since you already here

**A** **D**

And he said you can call me Joshua

**G** **D**

Joshua Joshua

**A** **D**

Whatcha doing living here all alone

**G** **D**

Joshua Joshua

**A** **D**

Ain't you got nobody to call your own

**A** **D**

No no no no

**D**

We talked 'til the sun was clean out of sight

**G**

And we still talking when it come daylight

**A**

And there was just so much we had to say hey

**D**

I'd spent my life in an orphan's home

**G**

And just like him I was all alone

**A** **D**

So I said yeah when he asked if I'd stay

Oh we grew closer as time went on

**G**

And that little old shack it was a happy home

**A**

And we just couldn't help but fall in love

**D**

That big black dog and that little old shack

**G**

Sitting down by the railroad track

**A** **D**

It's plenty good enough for me and Joshua

**G** **D**

Joshua Joshua

**A** **D**

Why you're just what I've been looking for

**G** **D**

Joshua Joshua

**A** **D**

You ain't gonna be lonesome anymore

**A**

No no
