

Kissing You Goodbye

Verse 1:

E
I've learned to turn the other cheek

Is not what love's about

I've turned mine so many times

That i damned near wore 'em out

A
I've grown used to your abuse

E
And i thought i'd never quit

But i woke up this morning

B **E**
Couldn't find my shiv-a-git

Chorus:

A
You've always liked to play your games

E
Well i got one for you

Pretend we're playing checkers girl

B
And it's your time to move

A
You'll find your suitcase on the porch

E
And the taxi in the drive

Get your tongue out of my mouth

B **E**
I'm kissing you goodbye

Verse 2:

E
I see you've finally made it home

You been out all night

Your artificial hair's a mess

And your clothes don't fit you right

A

I've given and forgiven

E

Till there ain't nothing left

But all you gave was just enough

B E

To satisfy yourself

Chorus bis:

A

I can smell that whisky in your hair

E

And sen-sen on your breath

If you ever tried to tell the truth

B

You'd choke yourself to death

A

I don't want your nasty kisses

E

And don't tell me no more lies

Get your tongue out of my mouth

B E

I'm kissing you goodbye

Get your tongue out of my mouth

B E

I'm kissing you goodbye
