

Touchy Subject

EEAEE

Intro: x 2

E
I'll sit and talk baby all night long
We can discuss whatever you want
We'll share our secrets, our little white lies

A
Before we're through, we'll be bonafide worldly wise
But there's one thing I wanna leave in the past

B7
So don't bring it up, don't even ask

A
'Cause that's a touchy subject

E
Let's not talk about it

A
Right now I can't explain it

E
I'm better off without it

A
I'm beggin' you please

n.c. **B7**
Don't even whisper one little word about love

A
'Cause that's a touchy subject with me

E
Don't take the shine off our moment together
It's way too soon to talk about forever
Go ahead and get a little closer to me

A
But darlin' won't you do me one courtesy
Let's hold off on our wants and our needs

We both know right where that leads
