

# Words By Heart

Billy Ray Cyrus

Intro: G D C

G D  
I was going through the closet, back in my old home

C D  
Found my lettermans jacket, so I slipped it on

G D  
Deep in the pocket, still folded up tight

C D  
Was the letter you wrote, to tell me goodbye

G D  
The minute I saw it, I just had to smile

C D  
It smelled like old leather, as smooth as a child

G D  
I took a deep breath, and put it away

C D  
There was no need to read it, I knew just what it would say

## Chorus:

G  
I know the words by heart

D  
I know every line

C  
From this ain't easy

D  
To you'll get along just fine

G D  
I know every comma, every question mark

C  
No I don't have to look

D G  
I know the words by heart

## End Chorus

G D  
Scenes like old movies, flash through my head

C D  
The homecoming game, the night on my bed

G D  
The words that you wrote, still cut me in two

C D  
How you said you still cared, but that we were through

## **Repeat Chorus**

### **Bridge**

Em                    C  
Ain't it funny how a memory  
G                    D  
Can play tricks on your mind  
Em                    C  
I don't remember a thing from my classes  
G    C    D  
But I can quote you every line

### **End bridge**

G                    D  
I took off my jacket, and put it away  
C                    D  
With your note in the pocket, like I found it that day  
G                    D  
Poured me a beer, then pictured your face  
C                    D  
And drank a silent toast, to things that time can't erase

### **Repeat Chorus X2**
