**Are you coming back to me**

My days and nights are lonely darling since you left and went away  
I still recall those unkind words were said that day  
It hurts me so to know you're leading a life that I'm to blame  
Believe me darling I'll do better just the same

Then come on back and lets begin our love anew  
Deep down inside there's still a lonesome for you  
Those unkind words were spoken dear we will just let them be  
Please tell me darling are you coming back to me

Each night I go to bed the dreams I dream my dear are all of you  
How I just love to gaze into your eyes of blue  
There'll never be another sweetheart that can take the place of you  
Tell me you still care for me, dear, please do

\* Refrain
