**Could you love me one more time**

Could you love me one more time  
With love that really is mine  
We've waiting so long  
They say you've gone wrong  
Have I lost you forever this time

Do you think that I believe  
There's talk that's going around  
I've heard lost of things  
That some have seen strange  
But darling I wouldn't throw you down

We'll go down by the river  
I'll ask you one last time  
As the night breezes blow  
I'll whisper so low  
Could you love me one more time

I know that you're my weakness  
I know you'll be my downfall  
I'm not sorry we met  
And I'll never forget  
Though I gave you my heart soul & all  
Could you love me one more time
