**Do you wonder why**

Last night I heard those nightbirds calling  
Brings back memories of days gone by  
It makes me think of you my darling  
And do you wonder why

Do you wonder why I love you  
After what you did to me  
Why oh why do I think of you  
But I do, It's plain to see

In all my dreams of our life together  
I think of you and then I sigh  
I just don't know what makes me love you  
And do you wonder why

\* Refrain

And now that we have parted strangers  
We have said our last goodbye  
I can't forget I love you truly  
And do you wonder why

\* Refrain
