**Going down, down, down**

I'm going down, down, down  
Going down, down, down  
Got nobody to love me now  
I'm sorrow bound, bound, bound  
Since you left this town  
Since you left I'm going down, down, down

I never thought my life would be s lonely  
I never thought my head could hang so low  
I love you my darling and you only  
Don't know where you are but now I've got to go

\* Refrain

For oh so many were your reasons  
Could it be you never gave us time  
In your heart if you desier a new love  
If so that your heart is not with mine

\* Refrain
