**I couldn't win**

I couldn't win because she did not love me  
She just pretended as she kissed me then  
And then about the time I really loved her  
She left me and I knew I couldn't win

I'm thankful for the happiness she gave me  
I wish that I could fall in love again  
I don't blame her I guess I'm just unlucky  
But from the start I knew I couldn't win

Tonight I sit here drinking in this tavern  
And as I order up the drinks again  
I see her smiling sweetly at another  
If only he just knew that he can't win

A broken heart she must have had in childhood  
Now she's afraid it might happen again  
She's really not to blame for all my heartaches  
But from the start I knew I couldn't win
