**I'd like to be sixteen again**

Oh the worst mistake I could ever make was to take taht pledge and vow  
Cause now I'm tied to a nagging wife and always in a row  
To scared to talk I'll walk the chalk, my head I'll meekly bow  
And I'd like to be sixteen again and know what I know now

Yea, I'd like to be sixteen again and know what I know now  
The girl please with every squeeze make em holler wow  
But its too late to change my fate such thing is not allowed  
I'd like to be sixteen again and know what I know now

I've spent my youth arunning round well I tought I knew it all  
But what I learned it hard mow my head is bald  
I reminisce of things I missed of fields I'd liked to plough  
But I'd like to be sixteen again and know what I know now

\* Refrain

My teeth are gone I'm not too strong don't have to much to build  
And ever a jug of Geritol won't change the way I feel  
I'm like the dog to old to bite all I can do is growl  
But I'd like to be sixteen again and know what I know now

\* refrain
