**I'm on my way back to the old home**

Back in the day of my childhood  
In the evening when everything was still  
I used to listen to the foxes  
And my dad in them old Kentucky hills

I'm on my way back to the old home  
That road winds on up the hill  
But there's no light in the window  
That shines long ago where I lived

Soon my childhood days are over  
I had to leave my old home  
For dad and mom was called to heaven  
We'll I'm left in this world all alone

\* Refrain

High in the hills of old Kentucky  
Stands a fond spot in my memory  
I'm on my way back to the old home  
That light in the window I want to see

\* Refrain
