

Leaf of love

The leaf of love is slowly falling
Like winter storms with rain and snow
You broke a heart in one short moment
The leaf of love is falling low

How could you go and leave me lonely
I have no one to call my own
The tree that bore my love for you dear
Has shed its leaves my love is gone

* Refrain

Stormy roads I'm traveling on now
Where I'll end, God only knows
A beaten rock along the river
It's quiet and peaceful where it flows

* Refrain
