

Bluegrass Songs - Lyrics
www.traditionalmusic.co.uk

Like a child in the rain

It's not that love is dead and gone
Or that you didn't try
That weight so heavy on my mind
It's the thought that you might mean it
When you call me on the phone
Just to tell me that you want me one more time

I won't be standing at your door
I stood there once before
I've known your hello and your good-bye
So why am I shaking like a child in the rain
When you tell me that you want me one more time
When you tell me that you want me one more time

Don't talk about the midnights
That come down like a stone
Can't you see that I already know
And after all the morning sun
Will burn away the dark
But even if you're there I'll be around

* Refrain

There's part of me that laughs
There's part of me that cries
There's part of me that can't make up it's mind
But living would be easier
If you never call at all
To tell me that you want me one more time

* Refrain
