

Bluegrass Songs - Lyrics
www.traditionalmusic.co.uk

Lonesome here without you

It's cold outside, the wind is blowing
And the snow is falling down
Now I'm so lonesome here without you
While you're somewhere running around

You done me wrong my little darling
Leaving me here this way
Some day I know I'll find you
When I do, I'll make you pay

* Refrain

Some times at night I dream about you
Wondering why you went away
You're out there some where with another
And I'm gonna find you some day

* Refrain
