**Lonesome old song**

I set here in shame while the records are playing  
The bules hang around me no need to go home  
I keep on a drinking and wandering about her  
That lonesome old song reminds me she's gone

That lonesome old song keep on a playing  
And telling a story that makes me so blue  
How the girl that I love has gone on and left me  
That lonesome old song reminds me of you

I know I'm a fool to still care about her  
She's been unfaithful, unkind and untrue  
But all that she's done right now don't matter  
That lonesome old song reminds me we're thru

\* Refrain

I know some day I'll get over losing  
She only girl I could ever call mine  
Since she's gone away, my life ain't worth living  
For a lonesome old song and a bottle of wine

\* Refrain
