

Thinking about you

Now as I sighs hours way
I think of yesterday
Now I know she's gonna a way
She's in heaven so the say

Will the engels tell her for me
That's my love will never die
Someday I walk along beside her
On the golden way up there

Now all I loved we live so galy
Until she had go away
Then she left me oh so londy
She lies at rest beneath the clay

* Refrain

Each night I think about dear
I wonder if you'll know me there
When I meet you upin heaven
We'll have life etenal there

* Refrain
