

You are what I am

You make time stand stil
Do it now and you always will
You take me as I am
You make me feel like a bland new man

Every time I fall down
I never get stuck
You get the combination, girl
To get me right back up
You are what I am
Loving you forever if I can

Think about the times we've had
We've never been blue
You got the combination, girl
To keep me straight and true
You are what I am
Loving you forever if I can

I know I'm lucky too
Without two or three just you and me
'Cos you are what I am
Loving you forever if I can
