

All In A Day  
(Rod Hicks)

When days are gray that's the murmur of the day  
When days are blue that's a part of it too  
When days are cold then your love calls  
It's all in a day, it's all in a day  
All in a day, baby  
All in a day, all in a day, all in a day

When days are gray it gets a man on his way  
When days are blue make a man very true  
When days are cold then your lover come to call  
It's all in a day, let me tell you  
It's all in a day  
All in a day, baby, all in a day

If days are gray make a man want to play  
If days are blue don't you try to tell me what to do  
When days are cold then your lover come to call  
All in a day, it's all in a day  
All in a day, let me tell you now  
All in a day  
Oh, baby, came to gray, came to blue, oh  
All in a day, all in a day, baby  
All in a day, wait for us tomorrow  
All in a day  
Oh, all in a day
