

As If We Didn't Know  
(Pat Robinson)

There was satin covered window  
On a sea of gathered green  
Is a bottle floating off the starboard bow  
And the once committed actress  
Who's long forgotten now

If we can't protect the farmer  
That protects the Motherland  
Then we're giving up the cure for all  
We just fill the empty pages  
With some mad neurotic bore

As if we didn't know  
It's as if it didn't show, oh no  
Just like it wasn't there  
It's as if we're unaware  
As if we didn't go

So your Mama leaves the courtroom  
With the verdict in her hands  
As the doctor takes his final curtain call  
It's just life and life on earth  
Someone has to take the fall

Does no good to tell the hangman  
What you just told to the court  
In this game you're just another domino  
And you're undergoing treatment  
That he swears is at the core

As if he didn't know mmm  
As if it didn't show mmm  
When you learn to look away  
You can say that it's OK  
As if you didn't know

So they dig for bad treasure  
Like they drink and build Jerome  
With this writer from Dakota  
Going cold

And we're caught between injustice  
And that deadly undertow  
No option was overlooked  
For friends this is it

On the horizon is a crossing  
Where three men hang in the mist  
As every story has an ending  
Every ending has a twist  
And it's taken all these centuries  
To get away with this

'cause there has to be a sentence  
If our duty is to serve  
Just as destiny can take it's final toll you know  
Think of it as something  
That we're learning to outgrow

As if we didn't know  
As if it didn't show  
It's like we don't believe  
In things that we can't see  
As if we didn't go, oh, oh

As if it didn't know, oh no

Let the hunger grow  
Let it overgrow

Just let the children grow  
As if we didn't know  
Look out for number one  
As if it doesn't show  
We've only just begun  
As if it didn't show
