

Can't Stop The World
(Valentine)

I gave up looking for a reason
To live with things just the way they are
I came around
Used to be easy to get to
And they got to me just about every way

Caught with no cards up your sleeve
Not much to choose from
Grew up all along thinking that you couldn't lose
Don't want to live without that security
You think with just a little more
Things will be alright

(You) can't stop the world
Can't stop the world
Can't stop the world
Why let it stop you
Why let it stop you
Why let it stop you

Your heart, your will, your car-
They've all been broken
You let everybody know about your better days
You got beat
And it's not entertaining
Watching you try to stand up on your feet again

(You) can't stop the world
Can't stop the world
Can't stop the world
Don't let it stop you
Don't let it stop you
Don't let it stop you
