

Carry On
(Clark/Robinson)

You can laugh at the things that I want
You can say that my dreams won't come true
But you know that I know what I want
The strength that it takes to follow through

This desire that is burning in me
Is a fire it is out of control
And you know that I know what I mean
'cause my heart has been broken

Over and over over and over so many times

And I will make my mistakes
Take my heartaches
Do what it takes to get along
I will lay down my pride
Tears I can't hide
I've made up my mind to carry on

Carry on - if you discover
Carry on - when dark clouds hover
Carry on - when there's no other place to go
Carry on - if you should stumble
Carry on - if dreams should crumble
Carry on - 'til you find your way back home

I will lay down where I could feel
All the grass and the wind in my soul
So I'll stare at the clouds overhead
'cause I've been disappointed

Over and over over and over so many times

And I will make my mistakes
Take my heartaches
Do what it takes to get along
I will lay down my pride
Tears I can't hide
I've made up my mind to carry on

Carry on - if you discover
Carry on - when dark clouds hover
Carry on - that there's no other place to go
Carry on - if you should stumble
Carry on - if dreams should crumble
Carry on - until you find you're not alone

Carry on, Carry on

Carry on - if you discover
Carry on - when dark clouds hover
Carry on - when there's no other place to go
carry on - if you should stumble
carry on - the dreams should crumble
carry on - if you should find your way back home

carry on - if you discover
carry on - when dark clouds hover
carry on - that there's no other place to go
carry on - if you should stumble
carry on - the dreams should crumble
carry on - until you find you're not alone
