

Don't Make Waves  
(Roger McGuinn/Chris Hillman)

If you're looking to get a good thing going for yourself  
House and pool a new Rolls Royce and some degree of wealth  
Don't make waves don't make waves don't make waves

Take a ride out West to find that freedom that you crave  
Kick that nine to five Dont let them make you a slave  
Don't make waves don't make waves don't makes waves

And when the toys that you dreamed of have finally come  
They all will break and you're back where you started from  
Malibou is calling you

With days and nights so warm  
You can find excitement any size shape or form  
Don't make waves don't make waves waves don't make waves

Flip-Side of "Have You Seen Her Face"
