

I Saw a Dream Come True
(Clark)

I've always been a lover
And they say that living for love makes you crazy
And I've always wanted someone
Who thought that loving all the time wasn't crazy

So don't you say it's never mine
I know that dreams can be taught to come true
Believe me I never did know what it was like
To have a dream come true till I saw you

Now you know that I'm crazy
But I'm just as crazy in love with you
And I've always wanted someone
Who would be kind of crazy in love too

So don't you say it's never mine
I know that dreams can be taught to come true
Believe me I never did know what it was like
To have a dream come true till I saw you

I saw a dream come true when I saw you
I saw a dream come true when I saw you
I saw a dream come true when I saw you
I saw a dream come true when I saw you
