

In The Evenin'
(trad.)

In the evenin, in the evenin
Baby when the sun goes down
In the evenin, in the evenin
Baby when the sun goes down
Ain't it lonesome baby when you're not around
And the sun goes down

When the fun, the fun's all over
Baby when the whiskey's all gone dry
A man gets to thinkin'
A guy was born to die
In the evenin' in the evenin'
Baby when the sun goes down, and you're not around

It's goodbye my friends and pals
I've got to be goin' my way
But I, I'm gonna see you all
Some old rainy day
In the evenin' in the evenin'
Baby when the sun goes down, and you're not around

In the evenin, in the evenin
Baby when the sun goes down
In the evenin, in the evenin
Baby when the sun goes down
Ain't it lonesome baby when you're not around
And the sun goes down
