

Northbound Bus
(Nickey Barclay)

Catch a ride on a northbound bus
'cause there's nothin' goin' on down here
Could have cried for the way it was
But there's no one left to dry my tears

When I think of how it used to be
When we all played together just for fun
Didn't matter who was right or wrong
Now I gotta get away
I can't be what is coming
I think I've been around too long

You and I were the best of friends
Well, I think it was a thousand years
Now goodbye this is where it ends
'cause there's nothin' goin' on down here

When I think about the way
I was paid for my trouble
It don't seem right and that's why I gotta sing this song
Now I gotta get away
I can't be what is coming
I think I've been around too long

When I think about the way
I was paid for my trouble
It don't seem right and that's why I gotta sing this song
Now I gotta get away
I can't be what is coming
I think I've been around too long

Catch a ride on a northbound bus
'cause there's nothin' goin' on down here
Could have cried for the way it was
But there's no one left to dry my tears

When I think of how it used to be
When we all played together
Just for fun nobody had to come on strong
Now I gotta get away
I can't be what is coming
I think I've been around too long
Around too long
