

Once In A Lifetime
(Clark/Robinson)

Once in a lifetime, once under the sun
There is one who will stand
Over the mountain, 'cross every sea
Tell every blade of grass

I realize that your heart is breaking
All the love you're giving and I am taking
But once in a lifetime, once in a dream
True love comes

I know your heart tells you that it's hard enough
Finding someone who is true to love
I don't pretend to know how long it will take
But when it finally happens, don't let it slip away

It's only once in a lifetime, once in a dream
That your true lover will come
Over the mountain, cross seven seas
To find my only one

I don't know why you find it so hard to believe
That one day you will find the one that you need
And as look within your lovers eyes
You'll hear these words and you will realize

Once in a lifetime, once under the sun
Baby once in a dream
