

One Day Week

It's been a long time since Saturday night
Got my mind on loving you right
It don't hurt a bit when I watch the week roll by
There must be something I can do
I got to spend a little more time with you
I got a one day week but I feel alright
When I see you on Saturday night

One day to love you
And give you all the help I can
One day to kiss you
And try to make you understand

Your Papa: all he does is gripe
Your mother says I'm not your type
Your brothers don't like the way I look

But baby it's just a matter of time
We're gonna leave your people behind
I got a one day week but I feel alright
When I see you on Saturday night

One day to love you
And give you all the help I can
One day to kiss you
And try to make you understand
