

Photograph
(George Callins/Carla Olson)

Today I saw you in a photograph
Touched your fave and thought I heard you laugh
Or have I just imagined this
Was our last kiss a goodbye

And when I saw you in the photograph
I remembered how I made you laugh
or did I just imagine this
One more kiss and goodbye

I never thought it would end like this
That first night, that first kiss
I never knew that love could hurt this way
Now I know since you went away

In the photo we were holding hands
Thought I finally found my true romance
Or had I just imagined this
Was our last kiss a goodbye

I never thought it would end like this
That first night, that first kiss
I never knew that love could hurt this way
Now I know since you went away

Today I saw you in a photograph
Touched your fave and thought I heard you laugh
Or have I just imagined this
Was our last kiss a goodbye
