

Somebody Loves You
(S. Love/A. Kemp)

Alright

My baby came this morning, arrivin' on the 8:05
Then she washed away my rain, keepin' me alive
And I'm thinkin', still I'm thinkin' aboutyou
Do you need some loving, real good loving to see you through

Did you catch me sleepin', was it just the closin' of myeye
With my eyes wide open the sunshine lightened up my mind
And I'm thinkin', still I'm thinkin' aboutyou
Do you need some loving, real good loving to see you through
Ooh, somebody loves you, be sure
And deep in your heart you know it's the only core
'Cause you know it's just you, you know it's just you,babe
