

Winds Of Change
Rick Roberts

There's a north wind blowing
And a ring around the moon
And I don't know where I'm goin'
But I know I'm gonna find out soon

The storm is growin'
And the sky is lookin' strange
Cold, cold wind keep blowin'
Whoa, that's a wind of change

Can't you hear the thunder
And the howling of the wind
Baby, don't it make you wonder
When the changes don't begin

I don't know why
But there's a tide turnin' the sea is dark
And there's a sky burnin'
I only know there's no returnin' to you

The storm is growin'
The sky is lookin' strange
Cold, cold wind keep blowin'
Whoa, that's the wind of change

Winds of change
Winds of change
Winds of change
