

With Care From Someone
(Dillard/Clark/Leadon)

You stood not near
Yet here so clear
Your story had to start
The jingle sun
Has really run
Into my aching heart
And now we shall see
What the future will bring
As we swing freely as one
And now we shall know
What love will show us has begun
So here's to you
With care from someone
This evening came
But not the same
As yesterday had been
Today had come
You're with someone
To hold now deep within
And maybe we'll find
This time is designed
For finding the meaning of one
And now we will know
What love will show us has begun
So here's to you
With care from someone

And now we shall see
What the future will bring
As we swing freely as one
And now we shall know
What love will show us has begun
So here's to you
With care from someone
