

Without You

Take away the night
Turn it into day
Roll back the darkness
Make it slip away

Put your arms around me
Tell me your love is true
I'll tell you one thing
If you go away

And I don't have you
I don't have you

My world would only be darkness
I'd be sad and blue oo-oo
Without you

Tell me that you need
To be here at by my side
I need your faith and strength
To hold back my pride

Here in such a time
Things around are strange
I need you near
If you go away

And I don't have you
I don't have you

My world would only be darkness
I'd be sad and blue oo-oo
Without you

Tell me you know that you love me
It's not my pride now that speaks
At a time like this
The mountains are crumbling
And fate's coming down
Please baby if you leave

And I don't have you
I don't have you

My world would only be darkness
What on earth would I do oo-oo
Without you
I'd be blue without you
