GAME:
VERSION ONE:
All stand in a circle with hands joined and arms held high to
form the "windows".
One person weaves in and out of people in the circle, going
under the joined hands during verse 1.
During verse 2, this person stands in front of someone else in
the circle.
This person takes the place of the original "weaver".

VERSION TWO:
Same as version one, except that after the "weaver" chooses a
partner, they both go around the circle during the next round.
Then, each partner chooses a new partner (total of four) for the
third round.
Continue in such fashion until no one is left!
