Do Me A Favor—Marty Robbins
Author: Don Winters

G       C               G
Do me a favor let me forget
D7                    G
I don't want to remember that we ever met
C                     G
Please stay away from me leave me alone
D7                      G
I've had too many heartaches a little too long

D7                       C                            G
Each time you walk by I don't know why but I wanna cry
A7                                                   D7
And it's always the same when I hear your name there's a hurt inside
G       C                            G
Do me a favor turn my picture to the wall
D7                           G
Then just one last favor forget me once and for all

Repeat #2
