C  
Oh the bells started ringing  
F  
And the birds started singing  
G7 C  
And the clock on the corner struck two  
Thunder started crashing  
F  
And the lightning started flashing  
G7 C  
And I knew I was falling for you

I was standing on the corner  
F  
When I knew that I's a goner  
G7 C  
The first time you came into view

My head started rocking  
F  
And my knees started knocking  
G7 C  
And I knew I was falling for you

Repeat #1

Well you scared me half to death  
F  
I could hardly catch my breath  
G7 C  
Your smile made my heart go boom

And when I looked into your eyes  
F  
I was almost paralyzed  
G7 C  
And I knew I was falling for you
