

Sitting And Thinking-Charlie Rich

F C G7 C
Please baby wait for me wait for me wait for me

I got loaded last night on a bottle of gin
And I had a fight with my best girl friend
But when I'm drinking I am nobody's friend
But please baby wait for me until they let me out again

I know the same thing has happened before
And every time it does I hate it more and more
Well when I'm drinking I am nobody's friend
So please baby wait for me until they let me out again

(Spend a whole lotta time) I spent a whole lot of time
(Spend a whole lotta time) sitting and thinking
(Spend a whole lotta time) sitting and just thinking bout you
If I didn't spend so much time sitting and drinking
We'd still have the love that we once knew

Oh I won't promise the same thing won't happen again
But I can promise it'll be a long long time till then
Cause when I'm drinking I ain't nobody's friend
But please baby wait for me until they let me out again
Please baby wait for me until they let me out again
