C
Smooth talking baby
I've been looking for you all my life it seems

Smooth talking baby
Maybe you're the meaning of my dreams

G7
I've waited for so long for you to come along
I thought time would never find
Do what you want to do say what you want them to
I hear you talking with your eyes

Repeat #1

G7
You knew right where I'd be you came to comfort me
I'm glad you heard my lonely cry
So dance me to the door so we can do much more
Than just talking with our eyes

Repeat #1
