

Crazy 'Bout A Woman  
by Donovan

I'm crazy 'bout a woman living in the neighbourhood  
Well, she's the kind of woman don't mean no one no good  
She got the ways of a devil sleeping in the lion's den  
I come home last night and she wouldn't even let me in  
You know, you're the kind of woman I just don't understand  
You taken all my money and you give it to another man  
That kind of woman I just don't understand, pretty mama  
You taken all my money and you give it to another man

Well, you're the kind of woman don't mean no one no good  
You're always doing things that you should  
You are the kind of woman make a man lose his brains  
You're that kind of woman drive a man insane  
You know, you're the kind of woman makes a man lose his brains  
And you're that kind of woman you're gonna drive this man insane  
Now, you give me the blues, now I guess you're satisfied, pretty mama  
You give me the blues, now I wanna lay down and die

Yeah, I'm crazy 'bout a woman living in the neighbourhood  
She's the kind of woman don't mean no one no good  
She got the ways of a devil sleeping in the lion's den, sure she has  
She's that kind of woman she's gonna drive me insane  
You know, sometimes you're as sweet, babe, as anybody wants to be  
Then you get a crazy notion and you're jumpin' all over me  
Now you give me the blues, now I guess you're satisfied, pretty mama  
Hey, you give me the blues, now I wanna lay down and die, oh  
You give me the blues, now I wanna lay down and die
